

## ENTHUSIASTIC HASKELL CLUB IS ORGANIZED

Galen Crow, President, A. L. Cockrum, Treasurer and Frank Laux, Secretary.

### HASKELL SPEAKS TONIGHT.

The Haskell Democratic club will meet tonight, Monday, July 15, at 8:30 p. m. in the old Elks hall over Franklin's grocery, 113 East Oklahoma. Gov. Haskell, Chas. N. Haskell will be present and address the club. All Democrats are earnestly solicited to be present.

**GALEN CROW,**  
President.  
**J. FRANK LAUX,**  
Secretary.

The liveliest and most enthusiastic organization in the city at present is the Haskell Democratic club. It was organized Saturday night at the pro-

ceedings made and begin active work in organizing the Democracy of the city. The charter membership is as follows:

late court room. More than sixty Democrats were present and splendid speeches were made. Owing to the rush, The Leader was unable to print the extended notice of the call for the meeting, but Saturday afternoon scores of Democrats signed the club lists and promised to be on hand at the meeting. Club lists were passed around at random. All Democrats who will vote for Haskell and the constitution are earnestly requested to join the Haskell club. Gov. Haskell has promised to address the club and the date will be announced in The Leader later. The club Saturday night adopted rules and by-laws and elected officers as follows:

Galen Crow, president.  
J. Frank Laux, secretary.  
A. L. Cockrum, treasurer.  
Guthrie Democracy is militant. It is not as numerous as could be wished but the associations this year from Republican ranks will be large, because all sensible minded Republicans want stanch and will support the constitution. The club will have large

### NEWS IN BRIEF

(Continued from Page 1)  
Two ... (pans) that ... probably within the next few weeks.

New York, July 15.—Stockholders of the Safety Car Heating company, which controls the American patents

of the Patsch gas system of lighting, refused to vote for the United States, Canada and Mexico, and in addition hold the company for several systems of steam-heating cars, held a special meeting in Jersey City today and acted favorably on the proposal of the directors to increase the capital stock from \$2,000,000 to \$10,000,000. The increase is to be distributed to the stockholders in the form of stock dividends.

Panama, O., July 15.—Arrangements are practically completed for the annual regatta of the Interstate Yacht association, which this year promises to rival, if not surpass, the meet of last year, which was the banner event of the association's history. Several series of sail and power yachts of all sizes, rigs and descriptions, and representing all important ports along the lakes will take part in the events of the week. One of the twenty-one foot interlake class will predominate in the regatta, but there are expected to be enough craft of the other classes to make things interesting in all the events.

many vicissitudes and the Zion City of early days may be said to no longer exist. John Alexander Dowie, the mainstay of the movement, is dead and with him appears to have gone the vitality of the city which he founded. The widow and son are taking in summer boarders at Shiloh house and many of the industries of the town have passed into the hands of outsiders. Internal troubles have rent the sect and no leader has so far appeared able to restore the old time prestige.

Chicago, 3-3; Philadelphia, 1-5.

**Wellston Defeats Guthrie.**  
The Guthrie Elks went down to defeat again yesterday in a hard fought and exciting game with the Wellston professional team before an immense crowd at Electric park by the score of 5 to 3. Only six innings were played, as the Wellston team had to leave on the four o'clock train. Braun was in the box for the locals and pitched good ball, considering the hard wind which he had to pitch against. Selsor was behind the bat for the first three innings and Brill, who succeeded him, caught a good game. The feature of the game was two three-base hits by "Billy" Wilson, who swatted the ball twice into the farthest corner of the ball grounds. The local boys were just beginning to play good ball and were hitting the Wellston pitcher when the game was called. In the fourth inning Brill lead off with a hot drive through the short stop, followed by hits by Gray and West and a two-bagger by Wilson, securing four runs. Braun, for the locals struck out seven men and Grandstaff, for the visitors, struck out four Elks. Braun and Cook showed up in the line light for the locals in stealing bases. The Guthrie Elks got nine hits off Grandstaff and Wellston got fourteen off Braun.

#### Notes.

Lemon Gray makes a good first baseman.

Beck, for the locals, played a good game at second.

"Billy" Wilson was a general favorite with the fans yesterday. He played a nice game at short.

Ernest Metz broke his little finger and was unable to finish the game. "Ernie" is a good fielder and batter, too.

Leonard West, the regular catcher of the Elks, played a good game in right field, and made two difficult catches.

Jonas Simpson, an ex-leaguer and professional ball player, who played with the Guthrie Senators two years ago played third base for Wellston yesterday.

Charles Brill, who caught for the Elks, will probably be enticed as a regular player on the team. He is the catcher of the Leader base ball nine.

The Ponca City Elks will play the local Elks here next Sunday. A special train will be run from Arkansas City and five hundred rooters are expected.

Never mind, Guthrie Elks; if you did get defeated you put up a good game against a bunch of professional players and could beat them easily with a little practice and team team work.

### Railroad Events

General Freight Agent Teasdale of the Santa Fe is here today conferring with W. H. Morton, in regard to shipping peaches east by the car load. Mr. Morton has bought two large crops this season, one at Perry and the other at Wynnewood giving \$3,000 each for the crops in the field.

Santa Fe train No. 118, due here last night at 4:30, did not arrive until 8 o'clock this morning.

Division Superintendent H. A. Tice, of the Santa Fe, passed through the city this morning enroute to Enid, to make the final preparations for moving the Denver, Enid & Gulf shops to Enid city. A new time card is to be put out in a few days which will give a morning train to Kiowa, Kansas. When the time card is out, all train crews, both local and passenger, will lay over at Guthrie at night and all trains will run through to Medicine Lodge, Kansas. The moving of the D. & G shops to this city will bring 25 or more families to this city and the train crews laying over at Guthrie will greatly increase the regular monthly payroll of the Santa Fe here.

**Escaped the "4" Hoodoo.**  
Editor Leader: As we pulled out of Cresson 13 miles before 7 o'clock on the 13th day of the month, 13 miles from Guthrie we found by actual count that there were thirteen passengers on board the train. Just as we were ready to jump from the train two negroes came aboard, increasing the number of passengers to fifteen, thus saving our lives. This can be proved by the thirteen passengers and the two negroes.

W. H. C. BROWN.

Conductor Griffin, of the main line of the Santa Fe is enjoying a few days lay off.

Do you really enjoy what you eat? Does your food taste good? Do you feel hungry and want more? Or do you have a heavy, dull feeling after meals, sour stomach, belching, gas on the stomach, bad breath, indigestion and dyspepsia? If so you should take a little Kodol after each meal. Kodol will nourish and strengthen your digestive organs and furnish the natural digestive juices for your stomach. It will make you well. It will make your food do you good. Turn your food into good, rich blood. Kodol digests what you eat. Sold by C. R. Renfro.

### GREAT ENGLISH WRITER.

(By Associated Press.)  
London, July 15.—Both the American Bar association and the International Law association are to be inaugurated on the fact that Sir Frederick Pollock has been secured to address the meeting of the last named body to be held next month at Portland, Me., immediately following the meeting of the American Bar association.

Few writers of the law are regarded as more authoritative than Sir Frederick Pollock, though he has lived so much among his books that comparatively little is popularly known of him. That he is a worker of the persistent sort need scarcely be written of one who has to his credit more than a score of volumes of published works. His position in the law is commanding. He has served as professor of jurisprudence at the University College, London, was for six years professor of common law in the Inns of Court, has edited the famous "Law Reports" for many years, and has held the chair of the corpus professorship of jurisprudence at the University of Oxford. His coming visit will not be the first he has paid to America. In 1903 he had the honor of being the Storrs lecturer at the Yale Law School.

**The Boat For the Missouri.**  
The eccentric and variable Missouri river has "a personal friend" in George Fitch, who declares in the American Magazine that the stream is navigable enough if only the steamboats would conform to its peculiarities. "The Missouri river steamboat," says Mr. Fitch "should be shallow, like, deep chested and exceedingly strong in the stern wheel. It should be hinged in the middle and should be fitted with a suction dredge, so that when it cannot climb over a sand bar it can suck it out. The Missouri river steamboat should be able to make use of a channel, but should not have to depend upon it. A steamer that cannot on occasion climb a steep clay bank, go across a cornfield and corner a river that is trying to get away has little excuse for trying to navigate the Missouri."

**The Axial Rotation of Venus.**  
For over two centuries it was generally accepted that, like the earth, the planet Venus rotated on its axis in a little less than twenty-four hours, but since Schiaparelli after long and careful observation of the planet suggested that the actual rotation period was between six and nine months astronomers have devoted much attention to this matter. In the Observatory Mr. Denning sums up the available evidence on the point and can only conclude that this particular problem still defies solution. Life on Venus would be very different from life on the earth should the planet's axial rotation be, as Schiaparelli asserted, identical with the period of its revolution round the sun, as in that case the same hemisphere would always be turned to the sun and enjoy perpetual day, while the opposite hemisphere would be doomed to eternal night.

### Officer's Natural Anxiety.

Sir Douglas Straight told this tale at a recent dinner of the Journeymen Tailors' Trade society in London: When a young barrister he went into a barber's shop to be shaved and was a little startled to see the wigmaker, an cashier behind the counter staring at him from time to time through the glass door. When he got outside the shop a policeman said: "I am very glad to find you have come out." The officer explained that he had been anxious because the barber had just come out of a lunatic asylum the previous week and his relatives were wondering whether they would have to send him back again.

## Pabst Purity

The way Pabst secures absolutely pure yeast for fermenting beer proves the care that surrounds every step in making Pabst Blue Ribbon Beer.

To secure an absolutely uniform fermentation, Pabst takes a single cell from its millions of fellows in the drop of pure yeast, and from this one cell grows or cultivates the yeast required for each brew.

## Pabst Blue Ribbon

The Beer of Quality is fermented in hermetically sealed vats. From the time it is brewed until it is bottled it never comes in contact with the atmosphere or human hands. It is then properly matured or aged in air-tight, cold-storage tanks.

When ordering beer, ask for Pabst Blue Ribbon. Made by Pabst at Milwaukee. And Bottled only at the Brewery.
